

The Catalytic Process Industries in China: Markets, Technologies & Strategic Implications

“Segment” Report – Refining Catalysts

CONTENTS

I. INTRODUCTION.....	1
II. EXECUTIVE SUMMARY.....	3
A. The Energy Environment in China.....	3
B. Alternative Fuels and Routes to Chemicals.....	5
C. The International Refining Catalyst Market and PRC’s Role Within It	8
D. Refining Catalyst Markets.....	9
III. THE REFINING CATALYST INDUSTRY IN CHINA.....	23
A. General	23
1. Introduction to the Oil Refining Industry in China	23
2. Introduction to Oil Refining Catalysts in China.....	28
B. Industrial Structure	29
1. Producers	30
2. Research Institutes.....	33
C. Analysis of the Market Supply/Demand Balance.....	34
1. Production of Oil Refining Catalysts in China.....	34
2. Consumption of Oil Refining Catalysts in China.....	38
3. Analysis of the Market Supply/Demand Balance of Oil Refining Catalysts	39
D. Price Changes and Affecting Factors	41
1. Price Changes of Refining Catalysts	41
2. Factors Affecting Price Changes	42

E.	Market Growth and Affecting Factors	43
1.	Market Growth	43
2.	Affecting Factors	44
F.	Imports and Exports	47
1.	Imports of Oil Refining Catalysts.....	47
2.	Exports of Oil Refining Catalysts	47
G.	Technologies of Oil Refining Catalysts	48
1.	Relatively Mature Technologies.....	48
2.	Relatively New Technologies.....	53
IV.	ISSUES AND CONCERNS IN THE CHINESE ENERGY AND REFINING CATALYST INDUSTRY	57
A.	The Energy Industry	57
B.	Rapidly Evolving Laws and Regulations	58
C.	The Catalyst Industry.....	59
V.	OPPORTUNITIES AND THREATS TO THE CURRENT SITUATION IN THE CHINESE REFINING CATALYST INDUSTRY	63
A.	Limited Restriction to Foreign Participation.....	63
B.	Changing Energy and Fuel Requirements	65
C.	Future R&D Needs.....	65
D.	Alternative Fuels and Related Catalyst Needs	65
VI.	STRATEGIES AND RECOMMENDATIONS.....	69
A.	Strategies from an International Perspective.....	71
B.	Recommendations from an International Perspective.....	72

TABLES

Table II-1 Oil Supply and Demand in China in 2000 and 2001.....	4
Table II-2 Changes in Refining Capacity 2003 vs. 2001	9
Table II-3 Regional Look at Worldwide Refining Operations 2003.....	9
Table II-4 Global Refinery Catalyst Market.....	11
Table II-5 Production of Oil Refining Catalysts in China.....	14
Table II-6 Production of Major Oil Refining Catalyst Producers in China	15
Table III-1 Number of Refineries in China and Their Capacity Distribution	22
Table III-2 Capacity of Major Crude Oil Processing Enterprises in China.....	23
Table III-3 Composition of the Major Process Units in Oil Refining Enterprises in China	26
Table III-4 Capacity of the Oil Refining Catalyst Sector in China	28
Table III-5 Major Oil Refining Catalyst Varieties in China.....	29
Table III-6 Major Oil Refining Catalyst Producers in China.....	31
Table III-7 Major Oil Refining Catalyst Producers in China and Their Contact Methods	33
Table III-8 Research Institutes Engaged in Oil Refining Catalyst Research in China.....	34
Table III-9 Production of Oil Refining Catalysts in China	35
Table III-10 Production of Major Oil Refining Catalyst Producers in China	37
Table III-11 Analysis of the Market Supply/Demand Balance of Oil Refining Catalysts in China	40
Table III-12 Catalyst Efficiency in Refining Industry in China	41
Table III-13 Price Changes of Oil Refining Catalysts in China.....	42
Table III-14 Demand Projection for Oil Refining Catalysts in China.....	43
Table III-15 Comparison of Gasoline Specifications between China and Europe.....	46
Table III-16 Comparison of Diesel Specifications between China and Europe.....	46
Table III-17 Imports and Exports of Oil Refining Catalysts in China in 2003	48
Table III-18 Physical and Chemical Properties of RN-10 Catalyst.....	50
Table III-19 Physical and Chemical Properties of Continuous Reforming Catalysts	52
Table IV-1 Oil Supply and Demand in China in 2000 and 2001	61
Table V-1 Capacity Expansion of Oil Refining Catalysts in China	64
Table VI-1 Chinese Economic Summary.....	70

FIGURES

Figure II-1 PRC's Coal Resources.....	7
Figure II-2 DME Provides a Unique Solution.....	7
Figure II-3 Global Refinery Catalyst Market.....	10
Figure II-4 Refinery Catalyst Market - % Total Global.....	11
Figure II-5 Composition of the Capacity of Oil Refining Catalysts in 2003.....	14
Figure II-6 Composition of the Output of Oil Refining Catalysts in 2003.....	15
Figure II-7 Market Shares Held by Major Oil Refining Catalyst Producers in China.....	16
Figure II-8 Consumption Composition of Oil Refining Catalysts in China in 2003.....	16
Figure III-1 Administrative Affiliation of Oil Refining Catalyst Producers and Research Institutes in China.....	30
Figure III-2 Composition of the Capacity of Oil Refining Catalysts in 2003.....	36
Figure III-3 Composition of the Output of Oil Refining Catalysts in 2003.....	36
Figure III-4 Market Shares Held by Major Oil Refining Catalyst Producers in China.....	37
Figure III-5 Consumption Composition of Oil Refining Catalysts in China in 2003.....	39
Figure III-6 Demand Changes for Crude Oil in China.....	44
Figure VI-1 PRC Principal Onshore Oilfields.....	69
