

The Catalytic Process Industries in China: Markets, Technologies & Strategic Implications “Segment” Report – Petrochemical/Chemical Catalysts

CONTENTS

I. INTRODUCTION	1
II. EXECUTIVE SUMMARY	3
A. Characteristics of the Chinese Petrochemical/Chemical Industry	3
B. Catalysts for Petrochemical and Chemical Applications	4
1. Markets and Growth	4
a. Aromatics.....	6
b. Organic Synthesis	6
c. Oxidation	7
d. Syngas and Derivatives	7
e. Hydrogenation and Dehydrogenation.....	7
f. Precious Metal Catalysts.....	8
2. Technologies and Prospects.....	8
a. Aromatics.....	8
b. Organic Synthesis	8
c. Oxidation	8
d. Syngas and Derivatives.....	9
e. Hydrogenation and Dehydrogenation.....	9
C. Next Steps	10
III. THE PETROCHEMICAL/CHEMICAL CATALYST INDUSTRY IN CHINA	11
A. General	11
1. Brief Introduction to the Petrochemical and Chemical Industry in China	11
2. Brief Introduction to the Petrochemical and Chemical Catalyst Industry in China...	12
B. Structure of the Sector	13
1. Introduction to Petrochemical and Chemical Catalyst Producers in China	13
2. Brief Introduction to Petrochemical and Chemical Catalyst Research Units.....	21
C. Analysis of the Production/Consumption Balance of Petrochemical and Chemical Catalysts in China.....	24

1.	Production of Petrochemical and Chemical Catalysts in China	24
	(i) Catalysts for Aromatic Compounds	24
	(ii) Catalysts for Organic Synthesis	25
	(iii) Catalysts for Oxidation.....	25
	(iv) Catalysts for Synthesis Gas and Derivatives	26
	(v) Catalyst for Hydrogenation and Dehydrogenation.....	28
	(vi) Precious Metal Catalysts	30
	(vii) Others	31
2.	Consumption and Market Growth of Petrochemical and Chemical Catalysts in China	33
	(i) Catalysts for Aromatic Compounds	33
	(ii) Catalysts for Organic Synthesis	35
	(iii) Catalysts for Oxidation.....	36
a.	Organic Chemicals	36
	(i) Production of Ethylene Oxide through Partial Oxidation of Ethylene	36
	(ii) Production of Vinyl Acetate through the Ethylene Process and the Acetylene Process	37
	(iii) Production of Acrylic Acid through Propylene Two-step Oxidation	37
	(iv) Production of Acrylonitrile through Propylene Ammoxidation	38
	(v) Production of Maleic Anhydride through n-Butene or Benzene Oxidation.....	38
	(vi) Production of Dichloroethane through Ethylene Oxychlorination.....	39
	(vii) Production of PTA through Xylene Oxidation	39
	(viii) Production of Formaldehyde through Methanol Oxidation	40
	(ix) Production of Acetic Acid through Acetaldehyde Oxidation	40
	(x) Production of Caprolactam through Cyclohexane Oxidation	41
b.	Inorganic Chemicals	41
	(i) Sulfuric acid	41
	(ii) Nitric acid	42
	(iii) Catalysts for Ammonia and Derivatives	42
	(iv) Catalysts for Hydrogenation	45
	(v) Catalysts for Dehydrogenation.....	48
	(vi) Others	49
	(vii) Summary.....	49
D.	Price Change and Affecting Factors	55
E.	Imports and Exports	55
F.	Development of New Technologies and Catalyst Products	56
	1. Aromatic Compounds	56
	(a) Xylene Isomerization Catalysts	56
	(b) Toluene Disproportionation and Transalkylation Catalysts.....	58
	(c) Production of Ethylbenzene through Alkylation of Ethylene and Benzene	60
	(d) Production of Cumene through Alkylation of Propylene and Benzene	62
	2. Organic Synthesis	64

(a) Carbonyl Compounds (Precious Metal Catalysts)	64
(b) Acetic Acid (Precious Metal Catalysts)	65
3. Oxidation	66
(a) Vinyl Dichloride and Vinyl Chloride	66
(b) PTA	66
(c) Phthalic Anhydride	67
(d) Maleic Anhydride	70
(e) Ethylene Oxide/dibasic Alcohol	74
(f) Propylene Oxides/Dibasic Alcohol (Hydroperoxidation Process)	76
(g) Vinyl Acetate	76
(h) Formaldehyde	77
(i) Acrylonitrile	77
(j) KA Oil	78
(k) Acrylic Acid and Methacrylic Acid	79
4. Synthesis Gas and Derivatives	80
(a) Methanol and Dimethyl Ether (DME)	80
(b) Production of Olefins from Methanol	82
5. Hydrogenation	83
(a) Olefin Purification	83
(b) Cyclohexane	89
(c) Aniline and Aromatic Amine	91
(d) PTA Refining	92
(e) Hydrogen Peroxide	93
6. Dehydrogenation and Olefin Reactions	94
(a) Styrene	94
(b) Isobutene	95
7. Development of other New Catalysts and Processes	96
IV. ISSUES AND CONCERNS IN THE PRC PETROCHEMICAL/CHEMICAL	
INDUSTRY	99
A. China's Chemical Industry Association And Its Role	99
B. Issues and Points of Attention	101
1. Issues	101
2. Points of Attention	101
V. OPPORTUNITIES AND THREATS TO THE CURRENT SITUATION IN THE	
CHINESE PETROCHEMICAL/CHEMICAL CATALYST INDUSTRY	105
A. The Current Situation - Overview	105
B. Opportunities and Challenges	106
1. Opportunities	106
2. Challenges	107
VI. STRATEGIES AND RECOMMENDATIONS	109

TABLES

TABLE II-1 Consumption of Petrochemical Catalysts in 2003 – 2004 and Forecast (Unit: kt) ..	5
TABLE III-1 Supply and Demand of Major Petrochemical Products in China in 2003	12
TABLE III-2 Major Petrochemical Catalyst Producers in China	14
TABLE III-3 Contact Methods of the Major Petrochemical and Chemical Catalyst Producers in China	17
TABLE III-4 Major Petrochemical and Chemical Catalyst Research Units in China	22
TABLE III-5 Contact Methods of the Major Petrochemical and Chemical Catalyst Research Units in China	23
TABLE III-6 Production of Catalysts for Aromatic Compounds in China	24
TABLE III-7 Production of Catalysts for Organic Synthesis in China	25
TABLE III-8 Production of Catalysts for Oxidation in China	28
TABLE III-9 Production of Catalysts for Synthesis gas and Derivatives in China	27
TABLE III-10 Production of Catalysts for Hydrogenation and Dehydrogenation in China	29
TABLE III-11 Production of Precious Metal Catalysts in China	30
TABLE III-12 Output Volumes of Petrochemical and Chemical Catalysts in China	31
TABLE III-13 Consumption of Petrochemical Catalysts in 2003 – 2004 and Forecast	50
TABLE III-14 Analysis of the Supply/Demand Balance of Petrochemical and Chemical Catalysts in China in Recent Years	52
TABLE III-15 Import and Export Volumes of Catalysts in China in Recent Years	55
TABLE III-16 Import and Export of Petrochemical and Chemical Catalysts in China in Recent Years	56
TABLE III-17 Varieties and Producers of Major Xylene Isomerization Catalysts in China and Abroad	57
TABLE III-18 Specifications of ZA and HAT Series Toluene Disproportionation and Transalkylation Catalysts Developed by Shanghai Research Institute of Petroleum Processing	58
TABLE III-19 Application Conditions and Properties of ZA and HAT Series Catalysts	59
TABLE III-20 Brief Description of Several Ethylbenzene Catalysts	61
TABLE III-21 Physical and Chemical Properties of FX-01 Catalyst and Its Commercial Application	63
TABLE III-22 Physical and Chemical Properties and the Catalytic Properties of Domestic M-92 Catalysts	64
TABLE III-23 Specification and Application of Domestic BC-02-007 and Imported Low- pressure Carbonylation Catalysts Used in Daqing Petrochemical Co., Ltd. and Qilu Petrochemical Co., Ltd	65
TABLE III-24 Producers, Varieties and Application Properties of Partial Phthalic Anhydride Catalysts in China and Abroad	68

TABLE III-25 Partial Catalysts Used in the Maleic Anhydride Production with the n-Butanol Oxidation Process as Published in Domestic and Overseas Patent Reports.....	72
TABLE III-26 Properties of the Latest Catalysts Produced in 5 Major Catalyst Producers.....	75
TABLE III-27 Specifications of MB Series Acrylonitrile Catalysts	78
TABLE III-28 Quality Indexes of Cobalt Acetate Catalysts Produced by Mechem and Dalian No. 1 Organic Chemical Plant	79
TABLE III-29 Varieties and Properties of Partial Major Low-pressure Methanol Synthesis Catalysts in China and Abroad.....	81
TABLE III-30 Varieties and Catalytic Properties of Partial pre-Hydrogenation Catalysts.....	83
TABLE III-31 Physical Properties of Partial C ₂ Hydrogenation Catalysts	84
TABLE III-32 Commercial Application Data of Partial C ₂ Hydrogenation Catalysts in China and Abroad	85
TABLE III-33 Comparison of the Properties of Partial C ₃ Gaseous-phase Hydrogenation Catalysts in China and Abroad.....	87
TABLE III-34 Comparison of the Properties of C ₃ Liquid-phase Hydrogenation Catalysts in China and Abroad	87
TABLE III-35 Specifications of Benzene Hydrogenation Catalysts.....	90
TABLE III-36 Specifications of the Modified Copper-silica Gel Catalyst for Nitrobenzene Gaseous-phase Catalytic Hydrogenation.....	91
TABLE III-37 Properties of the Modified Copper-silica Gel Catalyst for Nitrobenzene Gas-phase Catalytic Hydrogenation.....	92
TABLE III-38 Comparison of the Properties Between Pd/C Catalysts Developed by the Catalyst Research Institute of Shanghai Petrochemical Co., Ltd. and Amoco	93
TABLE III-39 Technical Indexes of Ethylbenzene Dehydrogenation Catalysts Produced by Xiamen University	94
TABLE III-40 Technical Indexes of Ethylbenzene Dehydrogenation Catalysts Produced by Xiamen University	95
