

Direct Conversion Of Methane, Ethane And Carbon Dioxide To Fuels And Chemicals

(completed August 2008)

A technical investigation commissioned by the members of the Catalytic Advances Program

CONTENTS

1.	INTRODUCTION	1
2.	DIRECT METHANE CONVERSION TO FUELS AND CHEMICALS	7
2.1	INTRODUCTION	7
2.1.1	Methane Conversion to Fuels and Chemicals.....	7
2.1.2	Scope and Focus of the Chapter.....	8
2.2	METHANE CRACKING	8
2.2.1	Production of Hydrogen Free of Carbon Monoxide.....	8
2.2.2	Oxidative Cracking and Autothermal Cracking	9
2.2.3	Catalysts, Reactors, and Processes.....	9
2.3	OXIDATIVE COUPLING OF METHANE.....	11
2.3.1	OCM Fundamentals	11
2.3.2	OCM Catalysts.....	13
2.3.3	OCM Reactors	14
2.3.4	OCM Processes.....	18
2.4	SELECTIVE PARTIAL OXIDATION OF METHANE (SPOM).....	19
2.4.1	SPOM Fundamentals	19
2.4.2	Catalysts and Reaction Mechanisms.....	19
2.5	CONVERSION OF METHANE TO AROMATICS WITHOUT AN OXIDANT.....	24
2.5.1	Methane Dehydroaromatization (MDA).....	24
2.5.2	Catalysts for MDA.....	25
2.5.3	MDA Reaction Mechanism	26
2.6	METHANE-ALKENE COUPLING.....	27
2.7	EARLY-STAGE DIRECT METHANE CONVERSION PROCESSES	28
2.7.1	Methane Activation and Functionalization.....	28
2.7.2	Plasma-Assisted Methane Conversion.....	30
2.7.3	Methane Halogenation and Oxyhalogenation.....	31

2.7.4	Biological and Biomimetic Methane Conversion Processes	35
2.8	COMBINATIONS OF METHANE CONVERSION PROCESSES	36
2.8.1	Pyrolysis and Hydrogenation	36
2.8.2	Aromatization and Steam-Reforming	36
2.9	CONCLUSIONS AND RECOMMENDATIONS	37
2.10	REFERENCES	38
3.	DIRECT ETHANE CONVERSION TO FUELS AND CHEMICALS	41
3.1	INTRODUCTION	41
3.2	OXIDATIVE DEHYDROGENATION OF ETHANE (ODE)	41
3.2.1	ODE Catalysts	42
3.2.2	ODE Reactors	46
3.2.3	ODE Processes and Products	50
3.3	DIRECT DEHYDROGENATION OF ETHANE	50
3.3.1	Nonoxidative Dehydrogenation	51
3.3.2	Oxidative Cracking of Ethane	52
3.3.3	Autothermal Cracking of Ethane	53
3.4	SELECTIVE PARTIAL OXIDATION OF ETHANE (SPOE)	53
3.4.1	Partial Oxidation of Ethane to Acetic Acid	54
3.4.2	Ethane Conversion to Other Oxygenated Products	58
3.4.3	Ethane Ammoxidation to O- and N-Containing Products	58
3.5	ETHANE OXIDATION WITH CHEMICAL OXIDANTS	59
3.5.1	Ethane Oxidation or Oxydehydrogenation with Carbon Dioxide	59
3.5.2	Oxidative Dehydrogenation of Ethane with CO as Oxidant	61
3.5.3	Ethane Oxidation or Oxydehydrogenation with N ₂ O	62
3.5.4	Ethane Oxidation in the Presence of Sulfur Compounds	63
3.5.5	Solid Redox Oxidants	64
3.5.6	Other Alternative Oxidants	64
3.6	ETHANE HALOGENATION AND OXYHALOGENATION	65
3.6.1	Oxychlorination of Ethane	66
3.6.2	GRT Process	67
3.7	COMBINATIONS OF ETHANE CONVERSION PROCESSES	69
3.7.1	Ethylene Production from Methane and Ethane	69
3.7.2	Use of Ethane in Alkylation and Aromatization Reactions	70
3.8	COMMERCIAL ACTIVITIES AND OUTLOOK FOR DIRECT ETHANE CONVERSION	71
3.9	CONCLUSIONS AND RECOMMENDATIONS	73
3.10	REFERENCES	73
4.	CONVERSION OF CARBON DIOXIDE TO FUELS AND CHEMICALS	85
