

The Catalyst Review

The Catalyst Review is a monthly newsletter specially geared for a targeted, busy audience...people who need to stay on top of developments that can affect their business, but don't have a lot of time to do that. *The Catalyst Review* is designed to provide readers with a global overview of events impacting the \$10 billion catalyst industry, through selected abstracts, company interviews, and original articles. There is also a special "Rumors" column that gives a view of what's going on behind the scenes too. Reader questions and comments are welcomed, to provide an additional value to subscribers. This reinforces the purpose of *The Catalyst Review*, which is to provide a timely line on key news and research, in an easy-to-digest format.

Now Available Electronically

We are pleased to announce that *The Catalyst Review*, the catalyst industry's leading monthly publication on technical and commercial events and analyses, is now available electronically (delivered via e-mail in PDF format).

The Catalyst Review Newsletter Subscription Rates (in US dollars)

Effective January 1, 2006 for New Subscriptions and Renewals

	Electronic copy only	Printed copy only	Printed and Electronic copies
