

CatCon2005

Conference & Exhibition

"Catalysis for Future Energy and Fuel Demands"

Sponsored by The Catalyst Group Resources, Inc.

SAVE THE DATE!

The Catalyst Group Resources (a member of *The Catalyst Group*) is pleased to announce **CatCon2005 Conference & Exhibition**, scheduled to be held **October 25 - 26, 2005** at the Wyndham Philadelphia at Franklin Plaza in Philadelphia, PA USA.

This year's event, **CatCon2005**, will emphasize ***catalysis for future energy and fuel demands*** and has been specifically designed to stimulate technical/commercial thinking and to promote discussions regarding the role of new catalysis in meeting changing energy demands based on progress in the areas of :

- gas-to-liquids (GTL) and coal-to-liquids (CTL)
- biomass conversion to fuels and feedstocks
- DME, Methanol and LNG
- coal-bed methane and methane hydrates
- impacts on refined products for fuels and petrochemical feedstocks

CatCon2005 continues to offer a premium boutique scientific/industrial development venue, well recognized in the catalytic process industries. Its key focus is commercial development opportunities based on recent technical advances, and the promotion of partnerships and relationships, with a new era of cooperation..

CatCon2005 will build on its tradition of providing a unique technical and commercial forum for the refining and petrochemical industries, while offering an opportunity to explore the new frontiers of energy and fuel technology.

We look forward to the next step in the **CatCon** conference series and hope that you will be a part of it. Plan now to join your colleagues in Philadelphia, PA and save **October 25 - 26, 2005** for **CatCon2005!**
