

## ADVANCES IN AROMATICS PRODUCTION

A technical investigation  
commissioned by the members of the  
Catalytic Advances Program

Client Private  
August 2015

### The Catalytic Advances Program (CAP)

The **Catalytic Advances Program (CAP)** is an information resource for research and development organizations in the petroleum, chemical, and polymer industries. By the direction of the member companies (through balloting and other interactive means), the program delivers a range of timely and insightful information and analyses which are accessible exclusively to members and protected by confidentiality agreements. The objective is to provide a technical update on commercially viable advances in catalysis as well as benchmark commercial advances in catalysis and process technology.

Members receive three in-depth **CAP Technical Reports** which are written and peer reviewed by leading scientists and experienced industry professionals in areas selected by the membership (via ballot); weekly *CAP Communications* (delivered via e-mail) which provide the latest updates on technical breakthroughs, commercial events and exclusive development opportunities; and attendance at the **CAP Annual Meeting**.

The **Catalytic Advances Program (CAP)** is available on a membership basis from The Catalyst Group Resources (TCGR). For further details, please contact Matthew A. Colquitt at [Matthew.A.Colquitt@catalystgrp.com](mailto:Matthew.A.Colquitt@catalystgrp.com) or +1.215.628.4447 (x1130).

# CONTENTS

<b>EXECUTIVE SUMMARY .....</b>	<b>xiii</b>
<b>1. INTRODUCTION .....</b>	<b>1</b>
1.1 AUTHORS & CONTRIBUTORS.....	2
1.2 REFERENCES.....	4
<b>2. ADVANCES IN PROCESS TECHNOLOGY FOR AROMATICS     PRODUCTION.....</b>	<b>5</b>
2.1 INTRODUCTION.....	5
2.2 TRADITIONAL AROMATICS SOURCES .....	5
2.2.1 Thermal Cracking.....	6
2.2.2 Catalytic Reforming and Cracking.....	7
2.3 NON-TRADITIONAL AROMATICS SOURCES.....	14
2.3.1 Aromatization of LPG.....	15
2.3.2 Aromatization of LCO/HCO.....	18
2.3.3 Aromatization Of Olefins .....	19
2.3.4 C <sub>1</sub> to Aromatics .....	20
2.3.5 Heavy Aromatics, Furan, and Isobutyl Conversion .....	24
2.3.6 Bio-based Aromatics .....	27
2.4 SUMMARY, IMPACT OF TECHNOLOGIES, AND CONCLUSIONS.....	31
2.5 REFERENCES.....	33
<b>3. ADVANCES IN AROMATICS CONVERSION .....</b>	<b>37</b>
3.1 INTRODUCTION.....	37
3.2 BENZENE DERIVATIVES.....	38
3.2.1 Ethylbenzene and Styrene .....	39
3.2.2 Cumene, Phenol, Acetone and Bisphenol A .....	43
3.2.3 Cyclohexane, Cyclohexanone and Caprolactam.....	48
3.2.4 Linear Alkylbenzene (LAB).....	51
3.3 TOLUENE DERIVATIVES .....	53
3.3.1 Toluene Diisocyanate (TDI).....	53
3.3.2 Carbamates (Polyurethanes).....	56
3.4 XYLENE DERIVATIVES.....	56
3.4.1 Terephthalic Acid.....	57

3.4.2	Phthalic Anhydride .....	59
3.5	TOLUENE HYDRODEALKYLATION TO BENZENE .....	61
3.6	TOLUENE DISPROPORTIONATION (TDP) TO BENZENE AND XYLENES .....	62
3.6.1	Selective Toluene Disproportionation to High Purity Benzene .....	62
3.7	C <sub>8</sub> AROMATIC ISOMERIZATION .....	65
3.7.1	Ethylbenzene Dealkylation .....	65
3.7.2	Ethylbenzene Isomerization .....	67
3.8	AROMATICS TRANSALKYLATION .....	69
3.9	TOLUENE ALKYLATION .....	71
3.9.1	Selective Styrene Production .....	72
3.9.2	Selective para-Xylene Production .....	75
3.10	SUMMARY, IMPACT OF TECHNOLOGIES AND CONCLUSIONS .....	77
3.11	REFERENCES .....	78
<b>4.</b>	<b>ADVANCES IN AROMATIC SEPARATION .....</b>	<b>87</b>
4.1	LIQUID-LIQUID EXTRACTION .....	87
4.1.1	Traditional Solvents .....	89
4.1.2	Ionic Liquids as Aromatic Solvents .....	90
4.2	EXTRACTIVE DISTILLATION .....	90
4.3	AROMATICS FRACTIONATION .....	94
4.3.1	Advanced Fractionation Flow Schemes for Aromatics .....	95
4.4	XYLENE PURIFICATION .....	101
4.4.1	Crystallization .....	102
4.4.2	Adsorption .....	103
4.4.3	Metaxylene Separation .....	106
4.5	XYLENE DERIVATIVE PURIFICATION .....	108
4.5.1	Terephthalic Acid and Isophthalic Acid Recovery and Purification .....	108
4.6	BROMINE INDEX REDUCTION IN BTX .....	108
4.7	SUMMARY AND RECOMMENDATIONS .....	110
4.7.1	Summary .....	110
4.7.2	Recommended Future Work .....	111
4.8	REFERENCES .....	112
<b>5.</b>	<b>INDEX .....</b>	<b>117</b>
