

## ADVANCES IN OCTANE ENHANCEMENT

A technical investigation  
commissioned by the members of the  
Catalytic Advances Program

Client Private  
October 2017

### **The Catalytic Advances Program (CAP)**

**The Catalytic Advances Program (CAP)** is an information resource for research and development organizations in the petroleum, chemical, and polymer industries. By the direction of the member companies (through balloting and other interactive means), the program delivers a range of timely and insightful information and analyses which are accessible exclusively to members and protected by confidentiality agreements. The objective is to provide a technical update on commercially viable advances in catalysis as well as benchmark commercial advances in catalysis and process technology.

Members receive three in-depth **CAP Technical Reports** which are written and peer reviewed by leading scientists and experienced industry professionals in areas selected by the membership (via ballot); weekly *CAP Communications* (delivered via e-mail) which provide the latest updates on technical breakthroughs, commercial events and exclusive development opportunities; and attendance at the **CAP Annual Meeting**.

The **Catalytic Advances Program (CAP)** is available on a membership basis from The Catalyst Group Resources (TCGR). For further details, please contact Matthew A. Colquitt at [Matthew.A.Colquitt@catalystgrp.com](mailto:Matthew.A.Colquitt@catalystgrp.com) or +1.215.628.4447 (x1130).

## CONTENTS

|   |           |
|---|-----------|
| <b>EXECUTIVE SUMMARY</b> .....  | <b>xv</b> |
| <b>1. INTRODUCTION</b> .....  | <b>1</b>  |
| 1.1 BACKGROUND OF OCTANE ENHANCING: REFORMING, ISOMERIZATION<br>AND ALKYLATION .....        | 1         |
| 1.2 RECENT HISTORIC TRENDS IN CRUDE OIL DISTILLATION AND INPUTS IN<br>U.S. REFINERIES ..... | 4         |
| 1.3 CURRENT WORLD GASOLINE MARKET AND TRENDS.....   | 6         |
| 1.4 REPORT OVERVIEW .....   | 7         |
| 1.5 AUTHORS & CONTRIBUTORS .....  | 8         |
| 1.6 REFERENCES .....  | 9         |
| <b>2. ADVANCES IN CATALYTIC REFORMING</b> .....   | <b>11</b> |
| 2.1 INTRODUCTION.....   | 11        |
| 2.1.1 Reforming demand and utilization: feedstocks and products .....                       | 14        |
| 2.1.2 Reforming capacity and growth .....   | 15        |
| 2.1.3 Reforming operation and catalyst issues .....   | 16        |
| 2.1.3.1 Unit operation.....   | 16        |
| 2.1.3.2 The catalyst.....   | 17        |
| 2.2 ADVANCES IN CATALYST AND TECHNOLOGY FOR COMMERCIAL<br>APPLICATIONS .....                | 20        |
| 2.2.1 UOP Fixed-Bed Platforming Process.....  | 20        |
| 2.2.2 UOP CCR Reforming Process .....   | 21        |
| 2.2.3 Axens Octanizing Process .....  | 22        |
| 2.3 CURRENT R&D AND FUTURE DEVELOPMENT .....  | 24        |
| 2.3.1 Catalysts .....   | 25        |
| 2.3.1.1 Chloride content .....  | 25        |
| 2.3.1.2 Promoter–metal interaction .....  | 25        |
| 2.3.2 Processes .....   | 26        |
| 2.3.3 Patent activity .....   | 26        |
| 2.4 SCIENTIFIC ADVANCES IN CATALYSIS .....  | 27        |
| 2.4.1 Advances in catalysts .....   | 28        |

|           |  |           |
|-----------|--|-----------|
| 2.4.1.1   | Effect of metal .....  | 28        |
| 2.4.1.2   | Effect of promoter.....  | 28        |
| 2.4.1.3   | Role of support .....  | 29        |
| 2.5       | CONCLUSIONS, RECOMMENDATIONS & HURDLES .....                             | 31        |
| 2.6       | REFERENCES .....   | 32        |
| <b>3.</b> | <b>ADVANCES IN CATALYTIC ISOMERIZATION.....</b>                          | <b>33</b> |
| 3.1       | INTRODUCTION.....  | 33        |
| 3.1.1     | Background of catalytic alkane isomerization.....                        | 34        |
| 3.1.2     | Isomerization capacity and growth.....                                   | 35        |
| 3.1.3     | Isomerization operation and catalyst issues.....                         | 35        |
| 3.2       | ADVANCES IN CATALYST AND TECHNOLOGY FOR COMMERCIAL<br>APPLICATIONS ..... | 36        |
| 3.2.1     | UOP Penex Process .....  | 40        |
| 3.2.2     | Axens Ipsorb/Hexorb Isomerization Processes .....                        | 42        |
| 3.2.3     | UOP Par-Isom Process.....  | 43        |
| 3.2.4     | GTC Technology Isomalk Process.....                                      | 45        |
| 3.2.5     | UOP Butamer Process .....  | 46        |
| 3.3       | CURRENT R&D AND FUTURE DEVELOPMENT .....                                 | 49        |
| 3.3.1     | Catalysts.....   | 50        |
| 3.3.2     | Processes.....   | 53        |
| 3.3.3     | Patent activity .....  | 54        |
| 3.4       | SCIENTIFIC ADVANCES IN CATALYSIS .....                                   | 55        |
| 3.4.1     | Advances in catalysts .....  | 55        |
| 3.4.1.1   | Catalyst type .....  | 57        |
| 3.4.1.2   | Effect of Promoter .....   | 60        |
| 3.4.1.3   | Role of Support.....   | 61        |
| 3.5       | CONCLUSIONS, RECOMMENDATIONS & HURDLES .....                             | 62        |
| 3.6       | REFERENCES .....   | 63        |
| <b>4.</b> | <b>ADVANCES IN CATALYTIC ALKYLATION .....</b>                            | <b>67</b> |
| 4.1       | INTRODUCTION.....  | 67        |
| 4.1.1     | Historic background of alkylation .....                                  | 68        |
| 4.1.2     | Current alkylation trends .....  | 69        |
| 4.1.3     | Alkylation capacity and growth.....                                      | 70        |
| 4.1.4     | Alkylation feed and product .....  | 71        |

|           |  |            |
|-----------|--|------------|
| 4.1.5     | Alkylation operation and catalyst issues .....                       | 71         |
| 4.2       | ADVANCES IN CATALYST AND TECHNOLOGY FOR COMMERCIAL APPLICATIONS..... | 74         |
| 4.2.1     | DuPont–STRATCO Alkylation Process .....                              | 74         |
| 4.2.2     | ExxonMobil (EMRE) Alkylation Process.....                            | 77         |
| 4.2.3     | CB&I CDAlky Process .....  | 78         |
| 4.2.4     | UOP AlkyPlus Process.....  | 81         |
| 4.2.5     | UOP ISOALKY Process .....  | 82         |
| 4.2.6     | CB&I AlkyClean Process.....  | 83         |
| 4.2.7     | UOP InAlk Process .....  | 87         |
| 4.2.8     | K-SAAT Alkylation Process .....                                      | 87         |
| 4.3       | CURRENT R&D AND FUTURE DEVELOPMENT.....                              | 89         |
| 4.3.1     | Catalysts .....  | 91         |
| 4.3.2     | Processes .....  | 93         |
| 4.3.3     | Patent activity .....  | 93         |
| 4.4       | SCIENTIFIC ADVANCES IN CATALYSIS .....                               | 95         |
