

## Multi-Client Studies

- The Intelligence Report: Business Shifts in the Global Catalytic Process Industries, 2025- 2031 – 2025
- The Intelligence Report: Business Shifts in the Global Catalytic Process Industries, 2023-2029 - 2023
- Membranes: Commercial and Technical Advances in Industrial Applications – Update 2023 – 2023
- Plastics Recycling and the Circular Economy II: A Perspective on Chemical Recycling Technologies and the Impact on Catalysis – 2022
- The Intelligence Report: Business Shifts in the Global Catalytic Process Industries, 2021-2027 – 2022
- Unconventional Catalytic Olefins Production II – 2021
- Power-To-X: Techno-economic, Commercial and Strategic Developments for Production of Energy Carrier Chemicals, Petrochemicals and Sustainable Fuels - 2021
- Progress in Technology for Polyolefins Production III - 2020
- Plastics Recycling and the Circular Economy: Catalytic and Compatibilization Solutions – 2020
- The Intelligence Report: Business Shifts in the Global Catalytic Process Industries – 2020
- Specialty Zeolites in Catalysis, 2019-2023: International, Commercial and Technical Progress multi-client study – 2019
- The Separations Report - 2019: Commercial, Technical and R&D Assessment in Refining, Chemicals/Syngas, Natural Gas and Industrial Gases (2nd biennial edition) – 2019
- Oil-to-Chemicals II: New Approaches from Resid and VGOs – 2019
- Advances in Syngas Production: Catalyst and Process Developments Update — 2018
- Polyolefin Catalysts and Processes: Competitive Implications of Industry Consolidation — 2018
- The Intelligence Report: Business Shifts in the Global Catalytic Process Industries, 2017-2023 — 2018
- Oil-to-Chemicals: Technological Approaches and Advanced Process Configurations — 2017
- The Separations Report: Commercial, Technical and R&D Assessment in Refining, Chemicals/Syngas, Natural Gas and Industrial Gases — 2017
- Polyolefin Catalysts and Processes: Technological and Commercial Impacts on PE and PP, 2015-2025 — 2017
- Membranes In Separations: Commercial Advances In Refinery, Petrochemical/Chemical and Industrial Gases Applications — 2016
- The Intelligence Report: Business Shifts in the Global Catalytic Process Industries, 2015-2021 — 2016
- The Middle East Catalyst Market: Technologies, Applications & Opportunities — 2016
- The Asia-Pacific Catalyst Industry: Markets, Technologies & Manufacturers — 2015
- Natural Gas Conversion vs. Syngas Routes: A Future of Convergence – 2014
- The Intelligence Report: Business Shifts In The Global Catalytic Process Industries, 2013-2019 – 2014
- Specialty Zeolites in Catalysis, 2002-2020: International, Commercial and Technical Progress - A New Era! - 2014
- The Industrial Adsorbents Business: Commercial Strategy, Technical and R&D Assessment – 2013
- The Catalytic Process Industries in China - Markets, Technologies and Strategic Implications - Update 2013
- Unconventional Catalytic Olefins Production: Commercial Vision and Breakout-2013
- GTL/XTL: An Assessment of the Technologies, Business and Competitive Landscape, 2010 to 2010-2012
- Intelligence Report-Business Shifts in the Global Catalyst Industry 2011 to 2017-2012
- Progress in Technology for Polyolefin Production-2011
- Syngas Production and Conversion to Products-Technology And Commercial Update for 2011
- Intelligence Report-Business Shifts in the Global Catalyst Industry 2009 to 2015-2010
- Efficiency Gains Through Catalyst and Process Technology Advancements in the Refining and Petrochemical/Chemical Industries-2009

- Integration of Biofuels Inside the Refinery Gate: Implementation, Logistics and Strategies-2009
- Intelligence Report-Business Shifts in the Global Catalyst Industry 2007 to 2013-2008
- Strategic Assessment of the Commercial and Technical Progress In International Oil Sands and Heavy Oil Upgrading-2008
- Syngas Production and Conversion to Products: A Strategic Assessment of the Technologies, Markets & Competitive Landscape-2007
- Biomass Conversion to Biofuels and Biochemicals-2006
- Intelligence Report-Business Shifts in the Global Catalyst Industry 2005 to 2011-2006
- Alternative Energy and Fuels Technology: Emerging Catalytic Processes to Improve Efficiencies and Yield-2005
- Catalytic Process Industries in China: Markets, Technologies and Strategic Implications-2005
- Gas to Liquids (GTL) - A Strategic Assessment of the Technologies, Markets and Competitive Landscapes-2004
- Intelligence Report-Business Shifts in the Global Catalyst Industry 2003 to 2009-2004
- Integrated Catalyst and Process Technologies for Value-Added Polyolefins-2003
- Intelligence Report-Business Shifts in the Global Catalyst Industry 2001 to 2007-2002
- Specialty Zeolites in Catalysis-1995 to 2002, International, Commercial and Technical Progress-2002
- Bio-Catalysis Revolution: Biopolymers and Biochemicals Come of Age-2001
- Polypropylene and Its Co-Polymers: Technology, Innovation and Strategies to Survive and Excel in 2001 and Beyond-2001
- Intelligence Report-Business Shifts in the Global Catalyst Industry 1999 to 2005-2000
- Intelligence Report-Business Shifts in the Global Catalyst Industry 1999 to 2005-2000 (cont'd)
- Polymer Additives: Technology Innovation is Driving Global Catalyst Industry Restructuring-2000
- Dow/Exxon/Univation Settlement: Implications and Strategic Considerations for the Industry-1999
- Intelligence Report-Business Shifts in the Global Catalyst Industry 1997 to 2000-1998
- Advances in Hydrocracking/Hydrotreating Processing to Meet Future Refinery Needs-1997
- Polymers In Transition-1997
- C1-C5 Basic Chemicals-Technical and Commercial Advances 1996-2000-1996
- Intelligence Report-Business Shifts in the Global Catalyst Industry 1995 to 1998-1996
- Commercial and Technical Advances in Solid Acid Catalyst Processes II-1995
- Future Aromatic Technologies-Commercial Opportunities, Derivatives and Economics 1994 to 2000-1995
- Polypropylene: the Status, the Challenges, and the Strategies to Survive and Excel in the 1990's and Beyond-1995
- Intelligence Report-Business Shifts in the Global Catalyst Industry 1993 to 1996-1994
- Optimization of Hydrogen in Refinery Processing-1994
- PVC Replacement-An Advanced Polyolefin Opportunity-1994
- Biopolymers-Rapidly Evolving Competitive Processes-1993
- CATEXPERT-a Catalyst Design Database 2.0-1993
- Skeletal Isomerization, Dehydration and Dimerization/Disproportionation-1993
- Advanced Comonomer Polyolefins Using Metallocene Catalysis - The Third Generation-1992
- Advances in Separation and Catalytic Membrane Reactor Technology-1992
- Advances in Separation and Catalytic Membrane Reactor Technology-1992 (cont'd)
- C1-C5 Basic Chemicals-Technical and Commercial Advances 1992-1995-1992
- Catalytic Membrane Reactors - Advanced and Competing Technologies-1992
- CATEXPERT-a Catalyst Design Database 1.0-1992
- Commercial and Technical Advances in Solid Acid Catalyst Processes 1992 to 1996-1992
- Impact of New Technologies on Refinery Oxygenates and Ethers: The Figure for MBTE, Economics and Worldwide Supply Demand Shifts-1992

Gwynedd Office Park • 750 N. Bethlehem Pike • PO Box 680 • Spring House, PA 19477 • +1 215-628-4447 [tcgr@catalystgrp.com](mailto:tcgr@catalystgrp.com) • [www.catalystgrp.com](http://www.catalystgrp.com)

- Specialty Zeolites in Catalysis-1992 to 2000, International, Commercial and Technical Progress-1992
- Styrene and diene Metallocene Polymer Technology - Technical/Commercial Advance-1992
- Advanced Manufacturing Techniques for Homogeneous Stereocontrolled Polymerizations - an Economic Evaluation-1991
- Commercial and Technical Advances in Hydrogenation/Hydrogenolysis Processes-1991
- Current Polymerization Catalysts - Peroxide, Perester, Azo and Other Initiators – 1991
- Current Polymerization Catalysts - Ziegler-Natta Catalysts, Co-catalysts and Stereoregulators-1991
- International Catalyst industry – 1991
- International Catalyst industry - 1991 (cont'd)
- Olefin Feedstocks for Future Fuels - Reconfiguration Economics and Advanced Technologies-1991
- Refinery Alkylation: As Environmental, Technical and Process Assessment-1991
- Technical Advances in Reactive Processing for Polymer Blends/Alloys Production 1990 to 2000, 1991
- C1-C5 Basic Chemicals-Commercial and Technical Opportunities, Legislative Impacts and Economics-1990
- International Hydrocracking Market-1990
- Technical Advances and Commercial Opportunities in Syndiotactic, UHMW, Copolymer and Block Copolymerization-The Next Decade-1990
- Worldwide Catalytic Technology Company Profile Program-1990
- Advances in Catalyst Designs and processes for Innovative Thermoplastic Polymers-1989
- Future Aromatic Technologies-Commercial Opportunities, Legislative Impacts and Economics-1989
- New HDS Catalyst Designs and Processes to Meet Low Sulfur Diesel Fuel Standards-Innovative Technology Solutions-1989
- New HDS Catalyst Designs and Processes (cont'd)
- Predictive Catalyst Design and Process Advances for Specialty Organic Chemicals-1989
- Worldwide Spent Catalyst Disposal - A Legislative, Technical and Commercial Assessment-1988
- Zeolites in Catalysis - International and Technical Progress II-1988
- Specialty Zeolites in Catalysis-International, Commercial and Technical Progress-1987
